

SALES BATTLE CARD

COMPANY OVERVIEW	PRODUCTS	PRICING
Square is a mobile payment company that offers business software, point-of-sale (POS) systems, payment hardware products, and small business services. Square is available to businesses of all sizes and offers a comprehensive free POS system as their base level option. With no fixed monthly cost, they offer an incredible value and a very low barrier to entry for their merchants. Their origins in mobile card readers for retail established their brand for small businesses.	Program/Features: Square Stand/iPad, Square Terminal, Remote device management, Square Online site, Square Payments, Reporting, Square Team Management, KDS, Square Payroll, Square Loyalty, Square Marketing	• Free: \$0 ; 2.5% + \$0.10 • Plus: \$60 ; 2.9% + \$0.30 • Premium: Contracted rate

COMPETITOR STRENGTHS	COMPETITOR WEAKNESSES
Free base-level offering • Free entry level option allows for very low commitment for new merchants • Can grow into paid options if needed Ease of use • Very easy for merchants to set up and use • Simple and straightforward interface with minimal hardware needed Brand awareness • Square has created a well-known brand offering in the retail space, which has transitioned well into food and beverage • Square has invested more in traditional advertising to establish and grow this brand awareness	Not practical for multi-channel, multi-location merchants • Lacks features to support the enhanced needs of bars and restaurants (e.g., multiple modifiers, various channel for one merchant, etc.) • Easy for entering the industry; may not grow with a merchant if they expand Limited hardware options • Built for iOS • Limited for additional options like KDS Widely rely on remote implementation • Less live/on-site support for merchants • Relies heavily on merchant self-installation
HOW TO ADDRESS THEM	HOW TO ADDRESS THEM
End-to-end payments pricing model • Using Shift4 opens up a plethora of features, hardware, and functionality that is free of charge • Less dependent on POS software and hardware and more focused on payment processing Support resources • Mature reseller community with nationwide coverage of local resources to install, train, and support merchants • Support has increased service options to include chat options in addition to the call center Shift4 brand • Shift4 rebranding and very publicly promoted partnerships with SpaceX and St. Jude have increased awareness	Built for Food & Beverage • Features support advanced hospitality needs with modifiers, various integrations, and functionality • Features directly support needs of growing businesses so merchants do not have to change their POS if they are able to have multiple locations Various hardware options • Hardware compatibility increasing to address current market supply issues; Android Reseller and direct sales model • Mature reseller community with nationwide coverage of local resources to install, train, and support merchants • New strategic direct sales team with SkyTab focus
